TERMS OF REFERENCE

Project No.: ATN/SX-14969-RG

Project Name: Investment Plan for the Caribbean Regional Track of the Pilot Program for Climate Resilience

Name of Consulting Service: Procurement Planning Assistant

I Background

- 1 The Inter-American Development Bank (IDB) has provided grant funding in the amount of US\$10.39 million to the Caribbean region to implement the Investment Plan for the Caribbean Regional Track of the Pilot Program for Climate Resilience (PPCR) over a five-year period. The program is being executed by the University of the West Indies (UWI), through its Mona Office for Research and Innovation (MORI), and co-implemented by regional organizations working on climate change in the region.
- 2 The general objective of the operation is to improve regional processes of climate relevant data acquisition, storage, analysis, access, transfer and dissemination and to pilot and scale up innovative climate resilient initiatives. In pursuing this objective the program utilizes a regional approach, that seeks to develop data and information products and services that can be utilized at both the regional and national levels. The program is structured into four components:

Component 1. Improving geospatial data and management for adaptation planning, sea level rise and storm surge impact analysis. The focus of the component is to improve the accessibility of high quality and current/updated bathymetric and near shore topographic data to support climate change analysis related to sea-level rise, storm surge, flooding, and ongoing adaptation planning at the regional and national levels.

Component 2. Consolidating and Expanding the Regional Climate Network and Global Platform Linkages. The focus of the component is to strengthen regional and national structures and mechanisms for the delivery of climate products and services at the national level through enhancements to the regional climate data monitoring networks and complementary linkages with global climate information centers/platforms.

Component 3: Downscaling and Expanded Climate Projection Models and High Resolution Maps. The focus of this component is to improve and enhance the availability of the downscaled future climate projections in the Caribbean in support of adaptation planning,

decision making, and sector level modeling/projection efforts (such as marine, agriculture, health and water).

Component 4: Applied Adaptation Initiatives. This Component will finance various sectoral interventions led by different regional organizations in Health, Marine, Agriculture and Water sectors.

II Consultancy objective(s)
