

### **REQUEST FOR EXPRESSIONS OF INTEREST CONSULTING SERVICES**

<b>Institution:</b>	The Inter-American Development Bank (IDB)
<b>Country:</b>	Regional
<b>Project:</b>	Investment Plan for the Caribbean Regional Track of the Pilot Program for Climate Resilience
<b>Sector:</b>	Health Applied Adaptation Initiatives
<b>Abstract:</b>	Perform a Risk Assessment Model for climate variability and vector-borne diseases, which will be used to develop an early warning surveillance system integrating climate variability and vector-borne diseases for Haiti, Jamaica and St Lucia
<b>Grant No.:</b>	ATN/SX-14696-RG
<b>Contract No.:</b>	CF12/C4.01-3
<b>Deadline:</b>	7 August 2019
<b>Eligibility:</b>	IDB Member Countries in addition to the Pilot Countries – Dominica, Grenada, Saint Lucia, and Saint Vincent and the Grenadines

The University of the West Indies, Mona (UWI, Mona) has received financing from the Inter-American Development Bank (IDB), toward the cost of the Investment Plan for the Caribbean Regional Track of the Pilot Program for Climate Resilience (PPCR), and intends to apply part of the proceeds for consulting services.

The consulting services (“the Services”) include:

1. Liaise with the Ministry of Health and other relevant stakeholders in each country to determine quantity and quality of information available to perform the works listed below.
2. Design and develop a database for a minimum of 10 years’ worth of climatic data at a pre-determined entomological scale, for each of the 3 pilot countries (Haiti, Jamaica and St. Lucia).
3. Design and develop a database for corresponding 10 years’ worth of available entomological indices (e.g. Ovitrap, House, Container, and Breteau) for each of the 3 pilot countries (Haiti, Jamaica and St. Lucia).
4. Develop a stakeholder approved action plan for the (3) PPCR highlighted countries outlining an integrated climate sensitive, vector-borne disease surveillance and control system.
5. Develop an Early Warning System to predict vector-borne-disease outbreaks and inform prevention and control measures in the (3) PPCR countries specified.
6. Develop, and carry out training workshops for stakeholders in (3) PPCR countries on usage of the developed surveillance system
7. Implement an integrated climate surveillance system, which is incorporated into routine health surveillance reporting and action in (3) PPCR countries.

MORI now invites Local or International Firms to indicate their interest in providing the Services. Interested Firms should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services.

The **full** Request for Expression of Interest can be accessed at <https://caribppcr.org.im/procurement/> or at the address below.

Firms will be selected in accordance with the procedures set out in the Inter-American Development Bank: [Policies for the Selection and Contracting of Consultants financed by the Inter-American Development Bank](#) GN-2350-9, and is open to all eligible bidders as defined in the policies.

Expressions of interest must be delivered in a written form, **not exceeding 20 pages**, to the address below (in person, or by mail, or by e-mail) by **7 August 2019 at 2 p.m.** Jamaican time.
