

# ATTENTION: CARIBBEAN FISHERS

**IT'S HURRICANE SEASON – BE ABLE AND READY TO REPORT MISSING FISHERS!**

After natural hazards like hurricanes, it is common for people to go missing. This risk is even higher for fishers out at sea who may get caught in the storm.

Fisheries Early Warning and Emergency Response (FEWER) accommodates for reporting and viewing reports of missing persons from other fisherfolk. Use this feature to:

- ✓ View reports by country
- ✓ Contact creator of a report
- ✓ Make a report
- ✓ Mark a person as found
- ✓ Share a report to other apps

**Together we can assist in finding and keeping our fellow fisherfolk safe.**

**FEWER and fishers' cell phones are companions to the VHF radio and GPS that together provide information and communications for safer fishing trips.**
